Best Practice in Dementia Care: research into practice

Shirley Law

Learning & Development DSDC

@dementiacentre

Best Practice Learning Programme: Five Editions—

Housing** Domiciliary Care,
Hospital*, Care home*, & Emergency
Care*

** Accredited by Royal College of Nursing*

*** Validated by Chartered Institute of
Housing*

#DARG17

Aims – culture change programme

- To improve the person's experience of care by changing often deeply held values, attitudes and beliefs about dementia.
- Enabling staff to learn together and develop a mutual understanding of best practice for those they support.

#DARG17

What makes this course work?

- Takes place in the workplace
- The facilitator is a colleague
- It is flexible with duty rotas
- Reflects the reality of practice for staff
- Staff are supported throughout
- Suitable for any educational level
- Introduction to higher education & dementia studies

#DARG17

- Since 2008, more than 11,000 staff have successfully completed the learning programme across the UK and internationally.
- 1,980 are trained facilitators

Hong Kong / Australia / Germany / Malta

#DARG17

Evaluation

Evaluation continues to evidence positive improvement in the quality of care:

- A Multi method evaluation commissioned and was published in November 2014

(2014 Velzke K Nursing Older People 26.9. 21 – 27)

Plan for 2017 - 18

1. Comparative study with Hong Kong – Australia - UK
2. University curriculum (SCQF)

#DARG17

“I have learned most of all to reflect on what I do within the ward as I realise that my actions and those of other staff can have a negative or positive impact on patients” (HCA)

#DARG17

Example of learning and changing practice

Fiona Osbourne

Support worker for a home care organisation

She speaks about 'Cathy' (name changed)
