You have been asked to write about a situation where you encountered a 'problem' when responding to a person with dementia in your care. Reflect on why you think the difficulty arose. (approx. 300 words)

Word Count:

Thinking about the situation again please describe how you would now respond based on the knowledge and learning that you have gained through completing the course. (approx. 300 words)

Word Count:

To be completed by the facilitator

I am a registered facilitator with the Dementia Services Development Centre. I have read this reflective essay and confirm that _____ (insert name) attended all meetings*, completed all self-study exercises and consents to the University processing personal data (name and email address) as per Best Practice Learner's Privacy Notice.
